

Coffee

Our Commitment to the Environment

We are fully committed to keeping our business as eco-friendly as possible.

We make use of all the available recycling facilities and our team are passionate about caring for the environment.

We use compostable take out cups and packaging made from plants, to play our part in minimising the huge amount of plastic packaging that ends up in landfill and in our oceans every year. We pay more for this but believe that it is worth every penny.

We offer a 15p discount on take-out drinks and food if you bring your own reusable cup / suitable container. We sell reusable cups so why not treat yourself and do your bit to help the environment.

Instead of buying a plastic bottle of water, you can ask us for a glass of tap water or we can fill up your bottle for free. We serve as a local water filling station for all members of the public, so if you're passing by and need a top up do pop in. Download the free Refill app to find your nearest station – visit refill.org.uk.
